Illinois Farming Overview: Lestra 36" High Bay Fixtures Brighten Farm Machine Shed!

STARTEK Lighting America, Libertyville, Illinois, manufactures commercial LED fixtures. The Lestra series high bay fixtures are ideal for sport facilities, large warehouse and distribution centers, industrial labs and manufacturing operations. A wide variety of color temperature and high performance (HP) fixture packages is available for significant energy savings.

All fixtures are ETL Listed, DLC approved. Fixtures carry a full five year warranty.

Each fixture has an internal driver with 0-10V dimming optional and comes standard with hard acrylic, diffused lens cover or optional polycarbonate lens.

Specification Information:

Lestra 36V1 High Bay 5000K 17,528 Lumens
173.7 Watts 100.9 LPW • Up or Down Light
15.5 lbs. 120-277 Vac 0-10 Dimming
Fixture can be Pendant, Cable, Eye Hook or
Box Mounted. Suitable for Damp/Dry Locations

StarTek Lestra V1 fixtures provided up to 60fc delivered in this Southern Illinois machine shed. Overall shed measures 225' x 125' with hanging heights ranging from 22' to 28'. Fixtures were suspended by cable.

Lestra fixtures are available in 36" and 18" lengths and the diffused light is free from shadows and breaks. The Lestra can be orientated with light projected down or up for indirect light.

*StarTek Lighting America
Made in the U.S.A.*

High Performance/Top Quality

StarTek Lestra Series fixtures come in either V1 standard output or HP high performance packages in both 18" and 36" lengths. Numerous options are available including motion sensors. See website for specification and photometric file information.

Easy Installation

With numerous mounting options for the Lestra—installation is easy and fast. For more information view the specification sheets and website. The Lestra is also an excellent uplight for indirect lighting.

Startek Fixtures on Entire Project

The Illinois farm project used Lestra fixtures for the interior main source of illumination. The shed featured conference rooms with a drop ceiling containing StarSleek downlights. Work tables had StarPower 8' linear fixtures; and StarPower 4' fixtures were mounted to maintenance creepers. Outside lighting was provided by StarPack waterproof fixtures.
