Chicago Grocery: Inside Look... StarPower Link Series Delivers Unique Setting for Futuristic Store!

STARTEK LIGHTING AMERICA, Libertyville, Illinois, manufactures commercial LED fixtures using NICHIA LED's. The StarPower Narrow Linking System was ideal for the futuristic look the grocery store owner wanted to achieve. The store is located in the middle of the Chicago Loop on Ohio Street near Michigan Avenue—and is a must see when visiting the Windy City.

All fixtures are ETL Listed and DLC Approved for utility rebates. Fixtures carry a full Five Year Warranty. The StarPower (LS) Linking System requires only one power drop for long, continuous runs (200' @ 277V). Each fixture has an internal driver and independently carries branch circuit voltage and 0-10V dimming to the next fixture. Simple install or removal of any fixture can be done in minutes. Comes standard with highly diffused lens cover. Several temperature and lumen output options are available in both narrow and wide lens.

Specification Information:

8' SPN 5000K 7,750 Lumens 63 Watts 124 LPW
91.6" Length x 3.2: Width x 3.1" Height
14 Pounds Max Weight 120-277Vac 0-10 Dimming

StarTek Lighting America
Made in the U.S.A.

A combination of mirrors, polished stainless steel walls and StarTek's sleek designed StarPower Linear Series fixtures make for an incredible grocery shopping experience.

200+ StarPower Link Series 5000K Fixtures in the 13,000sf location—deliver incredible fc levels with a hang height of 13+ feet against an 18' black ceiling and suspended grid.

High Performance/Top

StarPower Linear Series fixtures come in both standard output and HP high performance packages...and come in a wide array of lengths. Options include emergency backup and motion sensors. See website for specification sheets and photometric files.

Quick Install, Easy Connect

The StarPower Molex quick connect 5 pin system allows for fast, easy install. The slide-over sleeve joins fixtures for perfect, accurate aisle alignment.

Fixtures for the Future!

All StarTek fixtures are designed and manufactured with a very "sleek" precision style. Fixtures are an all aluminum extrusion with a clear, anodized finish and frosted lens for high diffusion and light dispersion.
