SPORTS FACILITIES Overview: StarTek Fixtures Installed in Numerous Indoor Applications!

STARTEK LIGHTING AMERICA, Libertyville, Illinois, manufactures commercial LED fixtures. StarTek's wide range of fixtures is perfect for all types of sport facilities. Fixtures are available in numerous color temperature options as well as both standard and high output variations. They feature low wattage with high LPW and great energy savings.

Whether your facility is a gymnasium, fitness center, soccer field, hockey rink or even a competition dressage horse facility—StarTek has you covered. All fixtures are ETL Listed and DLC Approved with a full five year warranty. Easy installation and several options that include a polycarbonate lens make StarTek the top choice for your engineering and maintenance staff.

Please refer to Website & Spec Sheets for details

StarTek Lighting America
Made in the U.S.A.

StarTek 18" Lestra V1 fixtures replaced 250 metal halide fixtures in a gymnasium in Florida. Hanging height 24'.

StarTek 36" Lestra HP (High Performance) fixtures used as uplights in a health club in Canada. The Lestra versatility and wide range of options make it a great choice!

Versatility

The Lestra 18' and 36" high bay fixtures can be orientated for down light projection or general diffusion as an up light for indirect lighting. They are available in black or white housing, with corrosion resistant finish. A high impact, polycarbonate lens is available.

Energy Savings, High LPW

Fantastic for new build and huge savings for retrofit projects. StarTek Lestra fixtures are tremendous in large field and court applications where maximum lumens are required with hanging heights ranging from 18' to 32'.

Soccer quad complex in Chicago, IL (ROI=18mos.)

Simple, Fast Installation

All StarTek fixtures are designed and manufactured for easy, quick installation. Please refer to website and specification sheets for mounting systems and instructions on installation.
